COLLECTION

One of Scandinavia's leading producers.

We are one of Scandinavia's leading producers and at our heart lies our Scandinavian design. To us, it is more than just a look; it is also a strong commitment to delivering long-lasting pieces of furniture – while minimizing waste, still keeping the air and water we all share safe and clean for future generations.

Furninova has decades of experience in designing and building sofas at our European factory. We truly believe that this is the only way to guarantee the high quality and craftsmanship that we require of ourselves and that we wish our customers to enjoy.

Custom made sofas

Above all, when you choose a sofa from Furninova, we embrace your individuality. Pick your personal favourite from our extensive range of fabrics and leathers. With us, you can embrace the flexibility to design or choose a sofa of almost any size and shape – a sofa to fully suit your personal lifestyle. We believe that good furniture should be a part of your home and everyday life: an extension of your personality and very individual requirements. In essence, it should be a piece of you.

We don't take chances. Everything we do is considered from all perspectives. That's why we own our factory and have full control from the beginning to the end. We build the frames of our furniture ourselves. We cut the fabric and leathers. Mount it all together and upholster the furniture. It is far from mass production; it is craftsmanship. The factory gives our customers and us greater flexibility. The location in Masury in Poland is not a coincidence. The closeness to our different markets in Europe and the world is essential, not least from a sustainability perspective.

As a company

Since our story began 30 years ago, our ambition has been to offer modern personalized furniture at an affordable price. Today we are glad to be able to say we have succeeded. The Nordic region is our domestic market, and we have sales offices around the world. Each year, approximately 250,000 customer unique sofas and armchairs leave our factory.

As an international company, we appear at the major furniture fairs. They serve as important meeting places where we build relationships with new and established customers. Therefore, our goal is always to provide our resellers and end-users with that little extra and unexpected that makes our upholstered furniture the best place in your home.

Brera

The Brera sofa is a unique piece of furniture designed for comfortable reclining rather than just sitting. It has a low and deep seating design with a curved end that adds to its bold appearance, making it an oversized and friendly sofa. The designers aimed to create an authentic lounge experience while offering everyday practicality by providing two optional back cushions.

You can choose the regular cushion for a relaxed and carefree look or the back cushion with a click function that provides a more defined and controlled seating arrangement.

Adjust the back cushions to achieve a comfortable seating posture.

The generous padding on all parts of the sofa envelopes you in a soft embrace, making it the perfect retreat after a long day.

Catena

Are you looking for a sofa that fits your style and needs perfectly? Look no further than our Catena lounge model! With Dusk back cushions and loose seat cushions, this sofa offers a classical, relaxed look. You'll love Catena's slightly deeper seating comfort and extra support from the back support cushions, which will keep you comfortable and relaxed regardless of your height.

Catena also features curved end modules and additional spaces for trays, storage boxes, or extra cushions. These options allow you to get creative and design your sofa in a way that is unique to you. Plus, all the modules come fully upholstered, so you can place them anywhere to create your perfect combination.

Equipped with comfort options C2, C4, and CM, the Catena sofa emphasizes luxurious comfort.

Isola is a collection of building blocks that are designed to create an ambience or define a room's function rather than a traditional seating area. The blocks are organically shaped and can be used creatively to leave traditions behind.

The flexible back parts come in two widths and can be placed freely on the top surface of the Isola to create a daybed, sofa, wide seat or chaise lounge, depending on your desired function.

Isola

Gambit

Our modular sofa, Gambit, features an exciting three-dimensional surface pattern that defines its contemporary design. We have designed the sofa to allow for various creative possibilities, offering it in numerous fully upholstered modules that can be placed together in a traditional arrangement or as lounge islands.

The surfaces of Gambit are designed to be smooth and alluring, encouraging tactile interaction. We have maximized comfort by incorporating ample padding into the straight back and by including back cushions that expand the sofa's functionality for both sitting and reclining.

Gambit's design integrates a deep seating area that allows for a full, cozy experience, perfect for unwinding. The visually appealing and tactilely pleasing nature of the Gambit sofa makes it not just a piece of furniture, but a haven of softness.

Jive

Available with a fixed or loose cover, the loose cover is perfect to have if you enjoy life on the sofa with kids. Or maybe you want to have the choice to change the look of the sofa, depending on season or setting.

For us, Jive is what defines a classical sofa. It has a deeper seat and stands on low legs, while the Dusk cushions give it a cosy and relaxed lounge look, making it feel light and airy. But what really sets Jive apart are the thoughtful details that make it so well-designed. With a fully padded soft back and extra back support cushions, you can be sure you'll be sitting comfortably, no matter how tall you are!

Ava

The Ava armchair has a friendly shape that was inspired by the calming sensation one experiences from picking up a pebble at the beach. It features soft, rounded organic lines and a well-padded frame that provides a sense of comfort and relaxation. The armchair also has a swivelling base, making it versatile and suitable for various uses and functions. Even smaller spaces can accommodate this armchair comfortably.

Sonora

The swiveling Sonora armchair is a comfortable and stylish piece of furniture that comes with a high-back and an optional rocking function. It is well-padded and has rounded shapes, making it look inviting and friendly. Choose from our wide range of premium-quality fabrics and let your Sonora reflect your unique taste and personality.

New range of legs for dining chairs

We have upgraded our chairs to provide more flexibility to our customers. Our dining chair models - Liva, Diva, Oscar, Layla High, Layla Low, and Paloma - now come with a new bottom plate that allows customers to choose any legs from our dining chair range. Additionally, we have introduced taller bar stool legs and legs for office chairs, which are available both with caster legs or as fixed legs. Most of them feature a swivel function as well.
