## AT THE FOREFRONT OF LACQUERED FURNITURE

Tenzo is a Swedish well-established furniture producer. In 1934, we started as a local wooden furniture maker. Today we deliver worldwide, and we still have our production where it all started, in the woodlands of Smålandsstenar in southern Sweden.

At Tenzo, we design and produce modern, colourful furniture with a genuine Scandinavian touch. Our areas of expertise are colours and lacquered furniture.

## WE KNOW COLOURS AND TRENDS

Colours and the latest trends are always an important part of our product development. We research and analyse trends to make eye-catching furniture for the contemporary home. Not only do we love colour, but we're also really good at it. Ask anyone in Europe about who does lacquered furniture best and we can almost guarantee they will pick Tenzo among the top producers.

We have long-standing collaborations with several well-known designers as well as an own product development and design unit. Some of our design partnerships have resulted in award winning ranges and bestselling products.

## FROM IDEA TO FINISHED PRODUCT

At Tenzo we have all knowledge about manufacturing, selling and distributing furniture. We do all steps when it comes to developing a new piece of furniture. We design, make blueprints, renderings and prototypes. We manufacture, make quality controls and we produce product information and images.

Our production facilities are in Smålandsstenar and here we produce most of our furniture. Our lacquering and packing lines are made to be flexible with short lead times. We can change the colour in our production process in five minutes and we have ability to produce large as well as smaller batches. We lacquer about 6 000 m<sup>2</sup> and pack 2 500 boxes per week, resulting in about 1 500 produced pieces of furniture every week.

We always have furniture in stock, ready to be shipped from our 10 000 m<sup>2</sup> big warehouse. Most of our standard ranges have short lead times. All products are packed in e-commerce approved cartons, ready to be shipped directly to consumers.

## DISPLAY YOUR TREASURES

Art is one of a kind when it comes to stability. Few other shelves can stand on its own like Art. It doesn't have any cross braces to disrupt the clean look but is yet completely steady. The shelves are beautiful in their appearance and are suitable as a room divider. It is also a good display location for your treasures.

The sides and feet are made of solid, oiled oak and the shelves are made of 19 mm chipboard lacquered in high-quality white paint. The oak does not only make it a strong construction, but it also allows Art to age beautifully.

MADE IN SWEDEN

SWEDEN SINCE 1934

# BESS

## SCANDINAVIAN RETRO

Bess is a collection of modern Scandinavian design intertwined with the classic appearance of the 50's. It is a collection of design simplicity, where the details are made with a "less is more" mind-set. The legs are fixed in a steady solid oak frame that keeps the furniture from slouching even if you put weight on it. The solid oak is recurring in the handles which is a small element that defines the typical appearance of Bess.

Bess is the perfect furniture collection for the home that wants to add something with a genuine style and character, but don't want the looks of one piece to take over the room. Add something out of the ordinary, exciting simplicity in its purest form.

# BESS

● ● ● ●

## Simplicity

The simple lines of character are what define the Bess collection. The legs are elegant and they are a perfect example of design from northern Europe. Bess proves that furniture doesn't need to be complicated to be beautiful.

## Made in Sweden

Our production facilities are located in Smålandsstenar in the south of Sweden. We have high quality standards and the quality of the furniture is always inspected before the furniture is shipped.

## Attention to details

The details of Bess are small and clean but is something out of the ordinary. Balance is created when the oak from the leg is recurring in the handles. The handles are also what sets the tone of Scandinavian design.

## Design by: Rutger Andersson & Jurij Rahimkulov

Rutger Andersson is an excellent designer of "less is more" and he doesn't embellish his creations with unnecessary decorations. Jurij Rahimkulov has a past as an interior designer in Moscow. The combination of aesthetic and architecture makes them a great designer duo.

## A SPARKLING COLOUR MIX

Harry is both fresh and elegant. The furniture design creates contrasts – soft rounded corners with black metal framed legs give the pouffes and sofas the best of two design styles.

Harry makes an impression as a single piece of furniture but can also be an eye catcher if you mix them together. Harry is the obvious choice when making an addition to any room that needs an elegant seating place.

Harry is covered in durable fabric in a range of colours. The pouffe can be used as a footstool or as an extra seat.

SPRING REBELS

MADE IN SWEDEN

# MALIBU

## MALIBU® - THE ORIGINAL SINCE 1998

The rebel. In the 1950s and '60s many young people broke free from the traditional social norms, wanting to release from their parents' generation. New subcultures emerged, such as rock n' roll and surfing. This furniture range is inspired by the styles and ideas of this era.

Rutger Andersson has created a colourful retro design, bringing the feeling of that generation back to the presence. The colour collection "Spring rebels" has radiant but yet grounded shades that gives your home a modish retro-touch.

Malibu is young, rebellious and colourful!

# PATCH

## SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look, you'll see that behind both design and production lie hours of work. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is something out of the ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.

# PATCH

o o o o

## It's in the details

The legs of Patch are something out of the ordinary. They are made of solid oak and have a unique cut that is a characterizing design detail. Every line and chamfer is thought through and truly makes Patch a work of art.

## Design by: Thomas Eklundh

Thomas Eklundh finds inspiration for a new design in almost everything, but mainly in film, art, and literature. With the ambition to make the everyday a little more exciting, he places great emphasis on both ideas and handcrafted details.

## Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

## Added value

On all Patch items, it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recur in the top plate. This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.
